

C.F.WIREROPE, LTD
Founded in 1970

MADE IN JAPAN

– High Quality & Reasonable Price –

We will continue to pursue excellence in quality to ensure that our customers choose us time and time again.

Brand Life Vision

We offer a fresh perspective on wire ropes and lifting gear, enhancing customer benefits and optimizing cost efficiency.

By utilizing CFW wire ropes, we minimize the workload for site workers while fostering a safer and more secure working environment.

C.F.WIRE

Company Strengths

High-Quality Products

Japanese consumers have the highest standards for quality in the world. In this highly competitive market, our company has been manufacturing wire ropes for over 50 years.

Flexible Customization

As we oversee manufacturing, we can produce products customized to our customers' requirements.

Simple Selection

With an easy-to-navigate product lineup and expert support, we help customers make the best choice for their needs.

User-Friendliness and Easy Handling

Our products reduce workload and provide a safe and comfortable user experience.

Delivery Time

With a stable production system and efficient logistics, we strictly adhere to delivery schedules, ensuring a seamless supply chain for our customers.

After-Sales Service

We provide comprehensive after-sales support, including technical consultations and periodic inspections, to ensure long-term customer satisfaction.

Do you have any concerns regarding the purchase of our products?
If you have any questions or concerns, please don't hesitate to contact us.

For Sliding Applications

1, Cable Laid Wire Rope

-Extremely Flexible and Easy to Handle-

For slinging applications, rope constructions such as 6 × 24 and 6 × 37 are commonly used. However, these ropes lack optimal workability because they are stiff and heavy. Cable-laid wire rope solves this issue, providing significantly improved workability along with enhanced durability. Additionally, its exceptional flexibility allows workers to handle it safely and efficiently. Since it is easy to manipulate, it also reduces workload and minimizes physical strain during operations.

IWRC + 6 × (6 × S (19))

2, Color Wire Rope

-Beautiful and Stylish-

Color wire rope (or vinyl-coated wire rope) is a standard wire rope encased in PVC or nylon for added functionality. This coating provides several benefits:

Features

1. Corrosion Resistance

The coating prevents direct exposure to moisture and air, reducing rust and making it ideal for outdoor and marine use.

2. Improved Safety

It covers sharp edges, reducing injury risk, while the non-slip surface improves handling.

3. Flexibility & Durability

The coating absorbs friction, reducing wear and extending lifespan, making it suitable for repeated use.

4. Aesthetic & Functional

Available in various colors for visibility, decoration, or application differentiation.

Wire Rope Professionals

We provide expert solutions and recommend the most suitable wire rope to meet your specific needs. Our services include a comprehensive range of end terminations and customized solutions to ensure optimal performance and safety.

Wire Rope Inspection & Safety

Regular visual inspections are essential to ensure that wire ropes remain in a safe working condition. If you observe any of the following signs, the rope may need replacement:

- ✓ Visible broken wires
- ✓ Reduction in rope diameter
- ✓ Fractured strands
- ✓ Corrosion
- ✓ Deformation or damage

End Termination Options

We offer a variety of end terminations to suit different applications:

- ✓ Hand-Spliced Eyes
- ✓ Flemish Eyes
- ✓ Pressed Thimble Eyes
- ✓ Pressed Soft Eyes
- ✓ Split Wedge Ferrules
- ✓ Wire Rope Clips

Key Information for Wire Rope Selection

To ensure we provide the best solution, please provide the following details:

- ✓ **Current Wire Rope Composition** – What type of wire rope are you using?
- ✓ **Application** – What is the intended use of the wire rope?
- ✓ **Diameter** – What is the required diameter?
- ✓ **Length** – What is the required length?
- ✓ **Minimum Breaking Load** – What is the required minimum breaking strength?
- ✓ **End Termination Type** – Which type of end termination is required?

- ▶ **For rope disposal standards, please contact us.**
- ▶ **For processing methods, please contact us.**
